=====

To be frank, \$60,000 a year with proper email marketing is conservative. Permission email marketing is the most powerful and profitable way to create a consistent source of income on the Internet.

Amazon uses it. Microsoft uses it. Sharper Image uses it. Motorola uses it. Even IBM and The Wall Street Journal are using it!

You are about to discover how the true, online marketing guru's are raking in tens of thousands of dollars everyday on the internet and how you can do the same, or come very close to it.

Ready? Ok, let's begin...

### WHAT IS PERMISSION EMAIL MARKETING?

Generally speaking, permission email marketing is email marketing which utilizes a list of names and email addresses of people who have requested free information from you or signed up for a free service you provide.

You will establish an ongoing relationship with your subscribers because you will be sending, via email, very desirable and FREE

information.

The information you offer will teach the subscriber something of value. Over time the people on your opt-in email list become familiar with you and grow to trust you. Having built such trust, when the time comes for you to endorse a product to the list, you can reasonably expect to produce anywhere from 10% to 40% in sales.

The more times you have communicated with your subscribers and the more value the information received offers, the greater expectation there is of a higher percentage of sales.

Remember this one simple FACT and you will not fail to earn a remarkable income as a permission email marketer:

**\*\* People are 1000% more likely to buy based on the recommendation of someone they TRUST than from a complete stranger \*\***

As a permission email marketer, you can reach your email list for free, as often as you wish, simply by sending an email with desirable information to them once or twice a week.

What do you get when your subscribers hear from you consistently?

Ans: TRUST!

What do you get when your subscribers TRUST you?

Ans: SALES! SALES! ...and more SALES!

So...

**STOP STRUGGLING** to sell products to strangers on the Internet.

**BUILD A RELATIONSHIP** with an opt-in email list by offering subscribers something of real value -- free of charge.

**OFFER DESIRABLE PRODUCTS** to your subscribers and you'll be on your way to quickly becoming a professional, email marketer and a full-time, online income will be well within your reach.
