How To Make Nice Money Searching For Useful Programs

Get Paid To Read. <http://homebiz777.narod.ru>

This brilliant program really impressed me! It's elegant, user-friendly, easy-to-work, enjoyable, and profitable. It lets you kill two birds with one stone: you make nice cash and at the same time get a lot of useful and interesting information. Surely you won't regret signing up with NITROCLICKS.

We all have tried pay-per-click and get-paid-to-read programs. The idea of this kind of programs is nice but the money paid is very modest. Usually it's not more than \$0.10 per e-mail read and something like \$0.02 per click. With this rate of money you soon become tired of clicking and reading.

NITROCLICKS pays you between \$0.30 and \$6 (!) per task done, the task being to visit web site or number of pages or to get registered in a program. Suppose you have 4 tasks done \$5 each. It takes around 5 minutes to register in a program. So you spend 20 minutes and make \$20. Isn't it nice?

But at the same time you get to know about useful online programs you would be searching anyway. Because you need good products and services to sell online to get commissions, and you need promotional tools to boost your businesses. When I joined NITROCLICKS I already was a member of several such programs. Then I suddenly realized that I could have joined them through NITROCLICKS and could've earned about \$50 just for registrations. Of course all my registrations were free, but I feel I lost \$50!

NITROCLICKS project was opened in September 2000 with the intention to create an exchange of information between advertisers and the program members so it was beneficial for both parties. In fact it is beneficial for both parties.

The program members make nice money and at the same time visit the sites they want to view. It's because when you fill in NITROCLICKS registration form you are asked about the sites you prefer to visit. Thus it's the sites of your choice which you visit: business opportunities, health, sports, travel, etc. That's why I say you kill two birds with one stone - you get money and you get valuable information you are looking for.

For advertisers it's also beneficial. Of course they pay for their advertising, but in return they get very careful viewers of their sites. With NITROCLICKS a visitor has to read all the information very carefully to answer then a question to get paid. If the task is to join a particular program you will have to prove your registration with some details from the confirmation e-mail.

In many ways is NITROCLICKS enjoyable. Everything is explained clearly, you know what you have to do. Interface is very user-friendly, you feel very comfortable. You really like it!

Sign up is free. Instead, you are paid \$10 for sign up. You have to be over 18 years of age, have own computer and a valid e-mail address.

You get paid as soon as your account accumulates \$500. This may take you some time. But in addition to payment for the tasks which you do yourself you get 10 percent of direct referrals' revenue (people that you refer to join under you) and 5 percent of indirect referrals' revenue (referrals made by your referrals - 5 levels deep). This makes the whole thing look still more attractive. Suppose you have 5 direct referrals and 20 indirect referrals each making \$100 a month. You will get $\$50 + 100 = 150$ for your referrals plus \$100 for your own tasks done. Totally it's \$250 a month.

But it's just the beginning. NITROCLICKS is fast growing program with around 3000 new members joining daily! It's very popular and is getting more and more popular. So definitely it's wise to join it right now while it's growing so fast to have a chance to build a sizable downline and get benefits from that.

Sign up and see for yourself. NITROCLICKS is really nice. It's real cash in your pocket. Frankly speaking, I wish I had known about this wonderful program a little earlier.
