Do you know what the most popular selling item on the internet is?

Well it ranks second only to adult web sites.

Do you know that by not selling this popular item it will mean a definite loss of sales for you?

I will tell you the answer in just a few minutes.

But it was a month ago today, when I discovered what so many successful e-business owners already had known, but what I failed to know.

I have tried and failed many, many times in the past, and I never could get the magic formula correct.

Until now!

Do you want to know what the MAGIC formula is...and how it can change your future right now?

Okay..I will share with you now the Magic Secret that will solve at least 96% of the problems that e-business owners face online.

Here is what I found..The most popular selling

item online is "How To books and articles"

I can hear you right now saying "what is this guy talking about"

This is what the internet was designed for.

Okay..think about this...why did people first dub the internet the "INFORMATION SUPER HIGHWAY"

It was simple logic..this was the number 1 item that you would find online..INFORMATION

"How To information" to be exact.

Here are some more facts for you to ponder:

== The internet allows you access to information in just a few minutes

== The internet never sleeps

== The internet gives you access to tons of FREE information.

== Now you will learn how to create your own how to products

Here are several popular ways to create How to headlines.

I must warn you though...by following this advice your web site sales will never be the same:-)

Ok here they are:

How to get \_\_\_\_\_  
How to have \_\_\_\_\_  
How to start \_\_\_\_\_  
How to begin \_\_\_\_\_  
How to become \_\_\_\_\_  
How to improve your \_\_\_\_\_  
How to develop \_\_\_\_\_  
How to get the most out \_\_\_\_\_  
How to avoid \_\_\_\_\_  
How to end \_\_\_\_\_  
How to get rid of \_\_\_\_\_  
How to conquer \_\_\_\_\_  
How to enjoy \_\_\_\_\_

By just adding the word how in front of an headline gives it additional appeal.

Now I can see you sitting there licking your chops,

waiting to find out the rest of the information on  
creating how to articles aren't you?

I will show you how in my next article.
