3 Profitable eBook Income Streams!

by Larry Dotson

1) Sell Advertisements

Make money selling advertising space in your ebook. You could charge for full page color ads, classified ads or banners ads. You could also trade advertising space in your e-book for other forms of advertising. For example, you could say, "Promote Your Business In Our Free E-book For Only (\$)". It's been downloaded over 5000 times!"

2) Sell Rights

Make money by selling the reprint rights to those who would like to sell the e-book. You could also make even more money by selling the master reprint rights. This would allow other people to sell the reprint rights. You could also include your ads in the e-books. Every time someone reads it or sells one, you'll get exposure.

3) Sell Products

Allow other people to give away your free e-book. This will increase the number of people who will see your ad in the e-book. You could also include a mini catalog of all your products or services that you offer in the e-book. You could include your own products or associate program's products in the e-book.
