Life's a Crapshoot
By Arlene Windell

Do you ever have the feeling deep inside you that you just never seem to get ahead, no matter how hard you try?

YOU'RE SETTING YOURSELF UP FOR FAILURE!

Going back to my old Amway days, (many moons ago), we called that stinkin' thinkin'. Whether you think you can or think you can't, you're probably right.

What separates the entrepreneur from the rest of the population? I believe it is our willingness to roll the dice, take the chance, and make the gamble. We know the odds are against us. They tell us that 95% of the people involved in network marketing fail, and some fail miserably. I've never considered myself average so I have no problem believing that I fall into that top 5%.

What separates the entrepreneurs from the wannabes is the ability to get back up after being knocked down for the tenth time and **COME BACK SWINGING!**

So, you say, the last three programs you joined and promoted your heart out came up snake eyes. What are you going to do about it? You can quit now and go back to your rut, (your nine to five job with somebody else's boot on your neck, telling you how to live your life), or you can chalk it up to experience and **GET BACK IN THE RING!!**

Your decision rests entirely on your attitude. Your attitude is either positive or negative. There are no gray areas here. How high is your belief level? Get your attitude **UP!** Realize, once and for all, that the only thing that separates you from the big winners, that top 5% in network marketing,

is that THEY REFUSED TO QUIT!! Realize that just because you didn't make money in your program, YOU ARE NOT A FAILURE!

The deck has been stacked against you in a good many of the programs making the rounds on the internet. Take the time to develop relationships with REAL PEOPLE IN REAL PROGRAMS.

There are many good programs with a lot to offer the entrepreneur who is willing to work. Do your homework and GET BACK IN THE RING!

A note from the author: I've been involved in marketing for over 25 years, with some successes and some "learning experiences". I've learned to celebrate my victories and shrug off my failures, dust myself off, get back in the ring, and COME UP SWINGING!!!
