Newbie to the internet can make money on the internet if they follow what is listed below:-

1) Willing to learn

Knowledge is power, especially in internet where things are changing so rapidly. Getting the correct information is crucial. Don't waste time on things that won't grow your knowledge.

2) Consistent

You must consistently keeping up the habit of learning to grow your mind. This is the place where it can make you rich or the other way round.

3) Persistent

Once you have learned enough to get you started on something that can make money online, promote it consistently and persistently as these two virtues will bring wealth to you.

4) Products

When looking for opportunity, look for reputable site that can really help you to make money online. Don't go for get rich quick or do nothing but will get something site.

There is no free lunch in this world.

The best products are those that you can let people get it immediately.

5) More Money And More Free Time

If you want to have more money and free time, you must work for it consistently and persistently with the right opportunity until you reach success. Winner will never quit until they are successful.

6) Right Approach

You must have a right approach and strategy to promote your business that can make you rich. Many good opportunities on the internet will teach you that.

7) System

Get on an automated system that can save you time and do the works for you automatically. You will feel bored and tire if you don't automate your business on internet

8) Marketing

No matter how good is your business, if you don't know how to market it, you won't make money. Established companies can use part of their profit to advertise, but for beginner this is not possible because of lack of fund.

However, you can use search machine to look for places to advertise for free. It's important if you want to do this, you must automate the process.

9) List of names

You are selling your products to people. That means you need to have the names of people who are interested in your type of business and products. Otherwise no sale means no money.

The question is how to get the list of names. One solution is you can purchase lists from reliable website or you can do it own your own.

From the knowledge that you learned as mentioned in 1), you can build a list for yourself. If you can't do it on your own, then look for a business that has built in facility for this.
