If one of your desires is to pull huge traffic to your site, then let's do some creative tweaking.

Adding some tweaks to existing strategies work wonders and this is just what I want to show you with five simple tips.

1. GIVE AWAY FREE EBOOK CONTENT

A lot of people give away ebooks. But why not give away the content which you have created in a win-win way, give the content out. Give anyone using the content an opportunity to package the ebook to his own taste and include his own links in the ebook. You also give them a chance to add their own additional content and probably choose a title. You can ask them also to put their name as a co-author of the ebook. In return, you can ask them to place your link at their websites.

I am currently giving away free content to anyone who wants it. You can send a blank email to wealthblueprints@getresponse.com <mailto:wealthblueprints@getresponse.com> to learn more.

Because the other party has his name on the ebook and ads in it, he will work like crazy and you will relax and benefit.

Tip: You can give more than one person the same ebook content, which will be modified by you and the other party to form a totally new ebook with a different title.

This is what I do with my free content. I ask the other party what he wishes to achieve with the content, then I re-tailor it to suit that need by adding, removing, rephrasing etc. What comes out is a totally different ebook and a new title.

2. HOST AN EBOOK DIRECTORY.

Thousands of free ebooks fly around. Create an ebook directory your website, harvest some of the ebooks playing around and place them in your directory. Make a little noise about it then sit down and see what happens.

Tip: Change the ebooks of ad new ones every month and if you have the time, every week and make noise about the recent additions.

3. REPRINT RIGHTS

You could give away reprint rights to your ebook to others for free with the instruction that they can change nothing in the ebook or if you want traffic bad, allow them to do some work on the book. (Be wise about this. Make sure you see the finished material before it goes out.)

4. EBOOK JOINT VENTURES

Place the links of others in your ebook and have them do the same for you. What you will get will be your link in tens of ebooks distributed by each individual aggressively without any cost from you. I do not need to spell out what that means to you.

5. EBOOK TARGET SAMPLING

You could create an announcement like this; Distribute this ebook to 200 individuals for free in 14days and get reprints rights to the ebook. First 20 to respond only.

You would be surprised to note that you will get 20 individuals edgy to distribute the ebook. The success of this depends of course on how great the content of the ebook is.

If the content is good and you get 20 individuals to distribute 200 in 14days each, you have succeeded in distributing your ebook to 2000 individuals in a space of two weeks. You can be sure of at least 500 visitors to your website afterwards.

Tip: Make sure you have a way of monitoring how many of the books are distributed through each channel.
