Marketing Secrets Exposed™ <http://www.marketingexposed.com/>

This little secret can bring you about 100 to 300 free banner impressions for every Banner program you join. And you don't even have to put a single banner on your web site.

How we're going to do this? Ok, follow me...

The first thing you must do is to setup your own FFA links page (don't go... Oh no! FFA pages.. WAIT!). You can setup your FFA page by downloading the FFA Blaster Software program at: <http://www.submitad.com/>

After downloading the program, follow the instructions to setup your FFA page. Upload it and then do the following:

Go to a Search Engine and type: "submit your ffa links page". See the results and search for every single FFA Engine that will let you submit your FFA page. The more sites you submit your FFA page, the more hits you'll get.

After a day or two your FFA page will begin to receive posts from hundreds of people. Good...

Now comes the second part of the trick. Join some banner exchange programs that don't force you to put a banner on your main page. You'll find a lot of these programs by doing a simple search on some Search Engine.

After joining the Banner programs all you have to do is to add the code they give you to your FFA links page, any place will do, I use the bottom of the page.

Now for the funny part... If you go to the Banner Exchange programs you joined you will notice that every single post that your page receives, yes... you'll get one free banner exposure. How about that??

You can expect to get about 100 to 300 post (free banner exposures) a day.

And this is all you have to do.  
Enjoy the free Banner exposures!
