Sitting here as every other day, checking email, adding subscribers, banning un-subscribers, tweaking our web sites, placing a few ads, etc.

I started thinking, We are all on the Internet Merry-Go-Round and we can't get off.

We start our Internet experience just looking, and then we notice all those neon signs saying let us help you be a millionaire before morning.

We take the bait, hook line and sinker, like a fish that hasn't eaten for a month.

The first thing we realize is that we just fell for the oldest trick in the book. Tell them what they want to hear and they will fall for anything.

We are all looking to make our life easier and a lot of these crackpots are using that to make a lot of peoples lives harder and not easier.

These crackpots know exactly how and what to say in their sales letters to sucker poor people in only to get their money.

Once we spend more than we can afford, we keep trying to make enough to pay off the debt we already made and it just turns into an Internet Merry-Go-Round.

I don't think I would be far off in saying that 70% of the people online today trying to make their fortune are on this Internet Merry-Go-Round.

If you have not jumped on yet, take your time before you make the jump and be absolutely sure that the offer

you are looking at will make money instead of loosing your money.

Wishing You Complete Success!
